

TELPARA HILLS

BRANGUS + ULTRABLACKS

- AIM FOR THE STARS -
BULL + FEMALE SALE 2025
SAT 20 SEPT - 11AM | TOLGA QLD

WELCOME FROM TELPARA HILLS

After a few challenging years in the cattle industry, we are seeing prices and excitement building again in 2025. All the indicators are there for very healthy times ahead for beef and the red meat production; with increasing global demand, a relatively good season in Queensland, and record prices in competing markets such as the USA.

This is the time to build. By injecting your herd with quality genetics, it places you in the prime position to take advantage of markets when they do inevitably rise. For those who purchased in the past few years, that was a savvy move. We trust you are seeing the results in improved efficiency, weights, growth, carcass quality, and demand for your steers. More importantly we hope those sires created females you want to retain in your herd and will have an impact for generations to come.

This year, we believe the lineup is star-studded; full of bulls that could be a herd sire for stud duties, or take your commercial operation to the next level. In every paddock, it's easy to pick bulls that exceed expectations. They look fantastic, are sound, have great EBVs, scan data, etc. As the saying goes, they tick all the boxes.

The 2025 standouts include outstanding sons and daughters of the world acclaimed Telpara Hills Mach 5 bull, together with awesome Ultrablack bulls by the \$280K MM Rocket Man, Mill Brae Benchmark, MM Rembrandt, and MW Reality Q170 who have taken our Ultrablack programme to yet another level.

We'd like to remind buyers to consider their own cow herd when selecting bulls. If going over pure Brahman herds, you want to strike the balance of going as low a Brahman percentage as your country will allow, so that the sire will have the greatest impact. This is why we have seen the popularity of UltraBlacks in the north rise, yet we still offer a range of bulls to suit the requirements of the country where these bulls are going. No matter the label, the bulls offered here meet the high Telpara standards. There are noteworthy bulls here as Brangus, UltraBlacks, and as higher Brahman percentage sires.

Heifers are always a highlight too. It's rare for anyone to sell the good ones like we do. Perhaps it's because we have conducted so many AI, ET, and IVF programs over the years, we have multiplied the truly great female genetics and can offer so many in our Sale. The notable programs are built on outstanding cows, and this has been the backbone of our success. We always encourage breeders to think beyond the bulls, and if you want true greatness, you have to start with the best females you can find.

Nothing makes us happier than hearing about the success our customers have had with the genetics purchased from Telpara Hills over the years. Thankfully, we see this all the time and now the demand for Black cattle is skyrocketing in the North. The time is right to invest in quality Telpara Hills genetics.

We look forward to hearing about your success in years to come,

The Pearce Family of Telpara Hills

Some of the hardworking Pearce family who with our awesome crew last year, work behind the scenes to create an exciting sale event.

SALE DAY INFORMATION:

SALE ADDRESS:

Telpara Hills Bull Depot, 157
Marnane Rd, Tolga, QLD

TERMS AND CONDITIONS - All lots will sell under the Australian Livestock & Property Agents Association Ltd Standard Stud Stock Auction Terms and Conditions of Sale. If unfamiliar with these Standard Terms and Conditions, please obtain a copy from Telpara Hills or Elders. Additionally, consent must be granted in writing from Telpara Hills before any genetics from this sale are cloned.

GUARANTEE - Telpara Hills will guarantee bulls and heifers to be fertile via natural service. This guarantees the purchase value minus salvage value, without interest, costs, or damages as a credit. In the event of a bull or female failing to breed, it may be replaced with an animal of comparable value or a credit to the purchase price on a replacement lot in the next sale or on one animal by private negotiation. Claims will not be valid if an incapacity is caused by injury, illness, or neglect since leaving Telpara Hills. Please contact us as soon as possible and within six months of the sale date.

RETAINED SHARE

All bulls sell with 80% semen marketing rights, giving the buyer the majority share in any potential semen revenue. If the buyer chooses to do so, we believe there is a great opportunity to market these bulls through our semen company, TGC. In our experience these genetics are outperforming many imported sires. Should any purchaser wish to operate on the basis of 100% ownership, please contact Telpara Hills at least 24 hours prior to the Sale. Under all circumstances and all bull lots, the vendors retain the right to collect semen at a later date at our expense. The buyer takes full possession of the bull.

INSPECTION & OPEN DAY - Inspections are open on sale day from 8 am. Inspections prior to sale day are welcomed by arrangement with Telpara Hills. Please note children are not permitted to enter sale pens under WPHS regulations.

Telpara Hills will also participate in the Tablelands Better Beef Open Day on Sunday, August 24th 2025. We invite you to visit then as it is a great, relaxed, low-pressure way to view the entire sale team without time constraints and at your own pace.

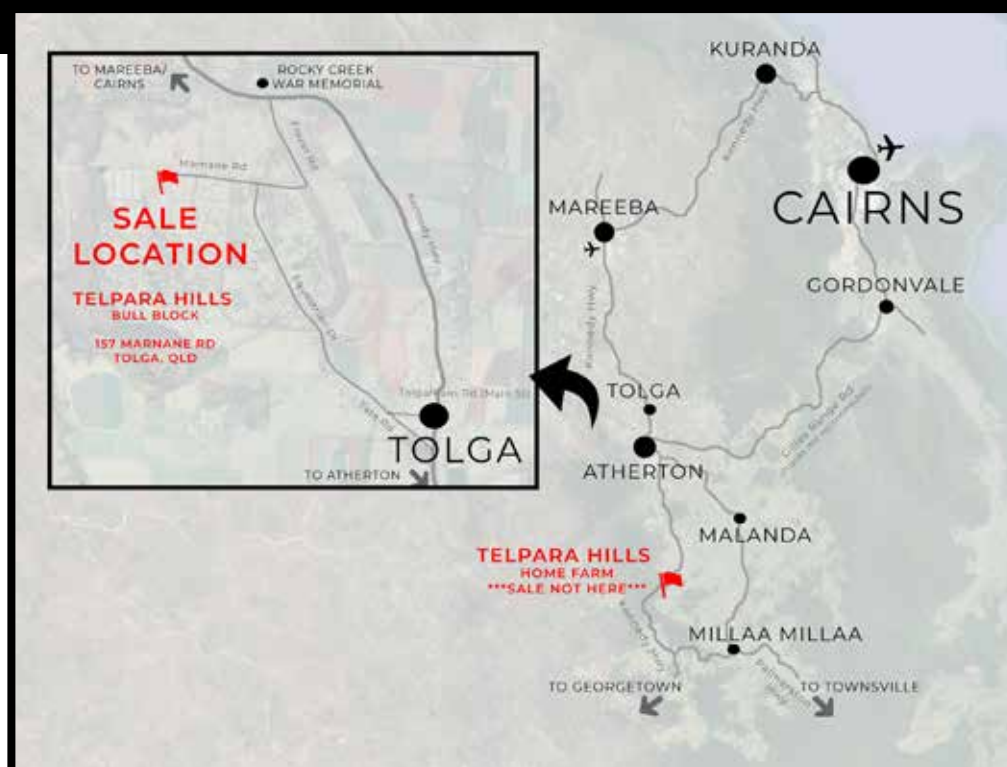

REGISTRATION - All buyers are required to register prior to the commencement of the Sale. This can also be done online on our website or in person at the Sale. Online bidding instructions can be found on page 4.

SUPPLEMENTARY INFORMATION - In order to make the most informed decisions about your bull, we will provide a Supplementary Sheet prior to the Sale with full scan data, DNA, and semen testing results. We highly encourage you to look at the IMF % in particular. It measures marbling which the Telpara Hills herd is renowned for. A guide to reading scan results is included on page 5.

INSURANCE - All lots become the property of the buyer at the fall of the hammer therefore we highly recommend insurance. As the Sale is on a Saturday, we recommend speaking to your chosen representative prior to the Sale if possible.

TRANSFERS - All animals are registered with the Australian Brangus Cattle Association and are eligible for transfer upon request. Please ensure this is clearly marked on your Buyer's Instruction Sheet after the Sale. All animals have been DNA profiled or have samples pending.

CATERING - Hot breakfast will be provided by Telpara Hills (kindly sponsored by NAB bank) at approximately 8-9am. We proudly support local businesses and have invited local food & hot beverage vendors to sell lunch during the Sale. You are invited to stay after the Sale for drinks, refreshments, and dinner, provided by our family. We hope you stay and join us.

OUTSIDE AGENTS

We welcome outside agents to attend the Telpara Hills sale with, or on behalf of their clients. A rebate of 3% will be paid to outside Agents who introduce their clients in writing & attend the sale.

Agents who introduce their clients but do not attend the sale will be eligible for a 1% rebate. You must also settle on their behalf within 7 days of the sale.

All introductions must be made 24 hours prior to the sale. Please send directly to:

Eliza Connors: eliza.connors@elders.com.au and

Brittany Pearce brittany@telparahills.com.au

AFTER SALE PICK UP

All lots may be collected from Sunday, Sept 21. Telpara Hills and Elders will organise delivery as soon as possible to major centres as outlined to the right.

HERD HEALTH- Telpara Hills is a family operation and we pride ourselves on our professionalism and animal care. We go above and beyond industry best practice to ensure your cattle are healthy and ready for a long, productive life.

Animals are:

- Reproductively Sound - Bulls are Veterinarian Assessed
- Bulls are Semen Tested, including morphology
- Raised in a Tick Area - Pre-Clearance Treated before the Sale
- Bulls: 7:1, 3 Day, Botulism, Vibrio x 2
3 Day booster due November 2025
7:1 & Botulism booster due Aug 2026
Vibrio booster due July 2026
- All Heifers: 7:1, Botulism
7:1 & Botulism boosters due Aug 2026
Heifers 3 Day Booster due Nov 2025
- Animal Health Declarations Provided

Anthony Ball of Elders, who has supported the Telpara Hills on-property sale from the beginning.

DESIGN: Catalogue design and lot photos by Brittany Pearce, with words from Trevor and help from the entire Pearce family. Copyrights Reserved.

DISCLAIMER: Whilst every effort has been taken to ensure that all details are correct, the descriptions contained in this catalogue are often opinion only. We cannot be responsible for the consequences of any actions taken or not taken as a result of these opinions. Safety: The owners, employees and representatives of Telpara Hills accept no liability for any accidents that may occur at the Telpara Hills sale venue. Although such occurrences are rare, any persons attending the Telpara Hills Sale do so at their own risk.

FREE FREIGHT

- AND FREIGHT SUBSIDY -

Delivery of Sale Cattle will be FREE OF CHARGE to the following major centres including:

Blackall (NEW)
Charters Towers
Clermont
Emerald
Hughenden (NEW)
Ingham
Mareeba
Richmond (NEW)
Rockhampton
Roma
Sarina
Winton (NEW)

SUBSIDISED FREIGHT - For Gympie & Non-QLD clients, we will offer a \$150 freight subsidy per lot from our last delivery centre listed. We hope that this is a better, more flexible option in these areas.

Gympie
NSW - All areas
NT - All Areas
SA - All Areas
VIC - All Areas

Lots will be delivered as soon as possible following the Sale. However, please allow time (2-3 weeks) for coordination and tick clearance, if needed. Any animals left at Telpara Hills beyond this time will be ineligible for free freight.

Onward freight arrangements from the delivery centres or intermediary points will be the buyer's responsibility.

Freight is to be arranged by Elders, and we will send updates via text messages. Please ensure your mobile number is included on the buyer's instruction sheet as we send group texts with updates for each truck.

Insurance is recommended.

DON'T LET ANYTHING KEEP YOU FROM THE CATTLE YOU NEED:

Nothing is as good as being at the Sale in person. You get the opportunity to see the cattle, catch up with friends, meet new people, and enjoy the sale atmosphere. We hope you can join us, but if you can't make it we have made it convenient for you to participate from wherever you may be.

1: GIVE US A CALL

We are all here to help you. We can talk with you about the cattle that interest you, logistics, and if you like, we can even offer an opinion. We have listed our contact numbers on page 1.

2: PHONE BIDDING: It's low tech, but it works. You can call any of us, Elders, or an agent of your choice. It gets a bit loud during the sale, so if you can call ahead of time we'd appreciate it. We will list extra phone contacts on our website, just in case.

How to register as an AuctionsPlus User/Buyer

01.

✓ Create an account on AuctionsPlus

✓ Verify your email and phone number.

02.

✓ Enter your PIC number, ABN, and business details if applicable.

✓ Read and accept the user rules and responsibilities.

03.

✓ Finalise registration by completing the user quiz.

3: BID AND VIEW ONLINE

You can participate from almost anywhere with an internet connection. From your computer or your phone, you can be part of the Sale. You can bid and/or watch it all live.

We recommend registering at least 48 hours prior to the Sale on the auction website:

www.auctionsplus.com.au. We recommend you access another sale and familiarise yourself with the system prior to sale day.

ART MEETS SCIENCE:

Cattle breeding is first and foremost an art. Nothing can replace evaluation with your eyes. We never choose an animal based purely on data. They always have to look the part, and at a bare minimum, any genetics we use in our herd have to come from cattle who have the basics of functionality and fertility.

If you breed exceptionally good phenotype cattle as a priority, the numbers should and will follow.

That's why Telpara Hills genetics or closely related animals make up 90% of the top 50 animals in the Brangus breed for 600 Day Weight EBVs. Our cattle are bred to put on weight fast!

We use all the tools, EBVs, scan data, DNA, and of course, our eyes. Just as importantly, we pass along that information to our customers so you can make informed decisions.

It's all important.

A BASIC GUIDE TO EBVS:

EBV stands for estimated breeding value. Its purpose is to predict the performance of an animal and takes into account the weights, measurements, genomics, scan data of each animal, the performance of animals in their pedigrees, and tries to remove differences in environment and feeding.

We find that looking at the ranking of animals is most helpful, which shows how an animal should perform when compared to other Brangus stud animals that are enrolled in the EBV system.

The rankings of animals in this sale are simply outstanding and predict that these Sale lots will inject huge weight gains into your herd.

SCAN DATA SIMPLIFIED:

Ultrasound Scan Data of the meat quality of a living animal is still extremely valuable information. In fact, our Brangus herd was based on "Brinks" bloodlines out of the USA; pioneers starting in the 1960s for using scan data to select animals with superior carcase qualities, especially marbling. Because of this, our scan data often rivals the very best Angus herds, and the meat quality is outstanding.

A very general guide to reading scan data:

IMF- stands for inter muscular fat, aka marbling. This is a huge factor in giving meat tenderness and flavour. More is better. Anything over 5% is a good score for the industry, 6% is top quality, 7% or more are breed leaders.

EMA- stands for Eye Muscle Area. This is a measurement of the muscle along the spine of an animal, a premium cut of beef, and is a good indicator of the overall amount of muscle and yield. More is also better, but in moderation. For bulls, a very general guide is a 110cm² EMA for a yearling bull that is less than 2 years of age is good, 120cm² EMA for a 2-year-old bull, a 130cm² EMA for 3-year-old bull. Bulls that have been used will see a slight reduction. Heifers will have much lower scores, but you can still compare animal to animal.

Fat Thickness: This is a measurement of the fat that is along the outside of the muscle. There are two measurements, rib measured between the 12th and 13th ribs, and P8 which is along the rump. What we like to see here is an animal's ability to put on fat, but not be overdone. For Rib Fat 5-10mm is ideal, and Rump 7-15mm. If an animal is out of this range it will skew other measurements.

BALANCE IS THE KEY TO SUCCESS:

We advise to not chase extremes in any trait, but always keep in mind the overall animal. For example, a high EMA can be a wonderful way to put more muscle into your herd, but chasing higher and higher EMA scores can lead to coarseness, lack of fertility, and can cause sizing issues in the restaurant trade. We like to never chase extremes and always consider matching strengths to the needs of a cow herd.

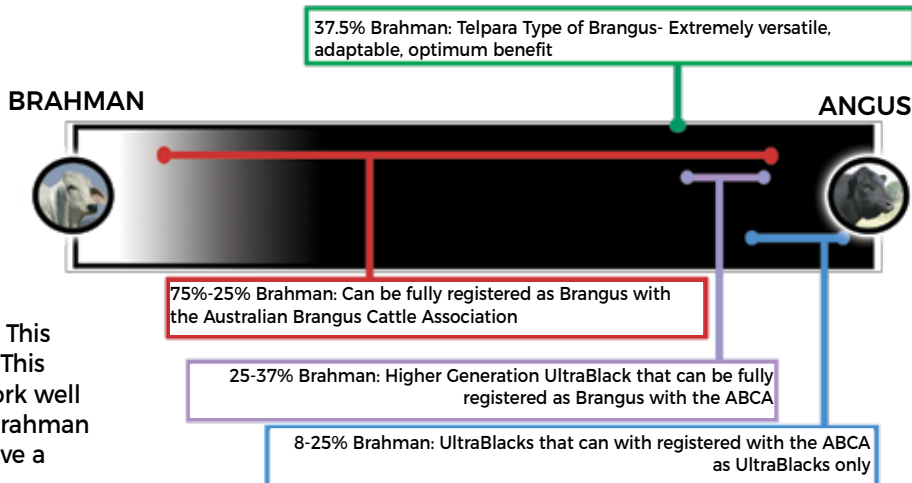

BRANGUS VS ULTRABLACKS:

Simply put, an UltraBlack is the result of Registered Brangus crossed with Registered Angus, creating an animal with excellent eating quality but with a touch of Brahman for survivability and hybrid vigour. An UltraBlack is ideal for those wanting to try pure Angus, but still need some resistance to the challenges of a hotter climate.

Over the years we have found that the "sweet spot" in Brahman percentage in our Brangus cattle is 37.5% (that's 3/8 Brahman: 5/8 Angus). This produces an animal that is extremely versatile. This 'Telpara Type' of Brangus has been proven to work well in even the toughest conditions, often over all Brahman cow herds, yet has enough Angus content to have a major impact on the resulting calves.

They have been bred at this percentage for generations, making them stable and predictable.

UltraBlacks' Brahman percentage can range from 8%-25%, depending on generations since the first cross, sometimes referred to as UB1, UB2, etc. UltraBlacks can be registered with the Australian Brangus Cattle Association from 8-25% and UltraBlacks over 25% can usually qualify for full Brangus registration status. We even have 5 lots in the sale that are only 9.4% Brahman, which we have marked as Angus Plus (still qualify for UltraBlack registration).

DNA RESULTS:

All the lots in this sale have DNA profiles on file with the Australian Brangus Cattle Association (some are pending). With both our Telpara Type Brangus and new UltraBlacks, these bloodlines have 2 copies of the polled gene as well as black coats. However, with the introduction of higher Brahman content options, some of those animals have a small scur and can breed with less consistency than our classic Telpara bloodlines.

PREDOMINATELY POLLED:

Telpara Hills Brangus & UltraBlack animals are predominately polled, with zero horned animals, which is a huge achievement and advantage to those who use Telpara Hills bulls.

PcPc = Homozygous Poll

Hpc = Heterozygous Poll

No result of homozygous horn in this sale

DOUBLE BLACK:

The vast majority of Telpara Hills type lots have 2 copies of the Black Coat gene, as well as our UltraBlack options. With the high Brahman content animals, they are all still dominant black, but may have less consistency depending on the females they are mated to. Still, they are excellent options for those who are in especially harsh environments.

ED/ED = Homozygous Dominant Black

ED/E+ = Dominant Coat ED/E+

ED/e = Dominant Black/recessive red

No result of homozygous wildtypes in this sale

MAXIMISE YOUR BULL'S POTENTIAL:

The after-sale care of your new bull is one of the most critical in his life. He must transition into a new environment and a new herd, and the care and consideration you give him can make all the difference.

A few tips:

- The truck ride can be stressful. When he unloads, place him with a few females or steers as companions, not rival bulls. This will help him settle into his new home.
- Cattle learn best from one another. If you are working them with horses or dogs, keeping your new bull with a small herd is a simple and effective way to incorporate them into the normal workings of your farm.
- Keep bulls on a rising or steady plane of nutrition. Also ensure your females are on a rising plane of nutrition to give them the best chance of cycling.
- Ensure you continue his recommended regime of vaccinations.

TRAVEL TIPS:

MAKE THE MOST OF YOUR TRIP:

GETTING HERE:

DRIVING

- We've included a map on page 2. The Sale venue is midway between the towns of Atherton and Mareeba, QLD, with the closest city being Cairns. The Sale address is 157 Marnane Rd, Tolga QLD

FLYING

- Cairns Airport is just over an hour's drive to the Sale venue | Both Mareeba Airport (paved) and the Atherton Aerodrome (grass) are only 10 minutes away if travelling by private aircraft

ACCOMMODATION OPTIONS:

Allawah Retreat, just down the road from the bull depot 0413 599 509

Southern Tablelands (Rainforest): 10 - 20 minute drive

Blue Summit Hideaway 07 4095 2218, Atherton Motel 07 4091 1500, Malanda Lodge 07 4095 5555, Atherton Tablelands Holiday Park (Woodlands) 1800 041 441, Malanda Falls Caravan Park 07 4096 5314

Mareeba (Dry, Tropical Farmland): 15 minute drive

Jackaroo Motel Mareeba 07 40 922 677, The Cape Gateway Motel 07 4223 1207, Mareeba Motor Inn (07) 4092 2451,

Birds Haven BnB: birdshavenmareeba.com

Cairns & Northern Beaches: Approximately 1-1.5hr drive and have a huge number of options

We recommend booking early due to school holidays

PLENTY TO SEE:

TABLELANDS:

- View the stunning waterfalls right next to the home farm (Mt Hypipamee/The Crater) and the circuit in Millaa Millaa
- Take a swim in Lake Eacham, a beautiful volcanic crater lake. There's also a wonderful 45 min walk.
- Enjoy local cheeses at Gallos near Malanda, or Mungalli near Millaa Millaa.
- Swim up to the edge and peer over the side of a waterfall at Davies Creek, not far from the Sale depot.

COAST:

- Port Douglas, Palm Cove, Trinity Beach, and Cairns are all beautiful places to stay, eat, and relax.
- Head to Kuranda to shop and see Barron Falls, said to be Australia's most specular waterfall. You can also get there via the Skyrail Gondolas or scenic train from Cairns.
- Explore the Great Barrier Reef. We recommend Green or Fitzroy Islands or Silver Sonic for the serious divers.
- Spot a cassowary and enjoy the quieter Southern beaches at Etty Bay and Mission Beach.
- Hartley's Crocodile Adventures to see HUGE crocodiles, located between Port Douglas and Palm Cove

A HUMBLE THANK YOU:

We would like to sincerely thank all our customers, whom we cannot name individually. Many of you have become friends and great sources of knowledge, support and inspiration.

We are proud of the success that you have enjoyed in your own programmes and hope that it will continue for many years into the future.

Our family would like to say an extra special thank you to those businesses that have advertised within the catalogue and to the Leitner family. Your support of this sale and throughout the year is greatly appreciated.

A sincere thanks also goes to Anthony Ball at Elders, his team, and the agents who join in our family's passion for the cattle industry.

BULLS

AN ALL-STAR LINEUP

THEY KEEP GETTING
BETTER

"You don't have one standout bull this year, you have a lot of them," was the comment of a respected CQ cattleman when he toured the Sale team.

When we say this Sale is full of Stars, we mean it. There is so much quality in the 2025 lineup, perhaps our most consistent line of bulls we've ever presented.

There are stellar bulls right throughout the 109 lots.

Their performance is built on the relentless pursuit of perfection over decades and no where else will you find this number of Brangus bulls with their depth of pedigree, EBVs, and super star looks all in one place.

ULTRA BLACK

If you are looking for a superstar bull, you won't find anything better in the Galaxy!

Galaxy is an Ultrablack by Milwillah Reality Q170 over a female pedigree which traces back to the famous Csonka 541D9 cow. She produced the first Brangus bull in AU to break the \$100k barrier TH Van Damme 541H30.

Superb EBV profile - a galaxy of unique results, 7 times in top 5% of the breed and higher.

Phenotypically Galaxy is picture perfect. Great sheath, masculine head big top and a great ham. After being absent from the show ring for 15 years this year we showed a team of 25. Galaxy was one of our senior bulls we showed and won Reserve Senior Champion Bull, only missing out to a bull we have retained, TH Ultra Sonic 541U31.

Super Quiet disposition on this bull. Broken in just 2 weeks before Malanda Show and drew high praise from experienced judge Graham Brown of RSVP Droughtmasters. Galaxy's quality and impeccable temperament were on display. A true crowd favourite and adored by the Telpara team. It will be hard to let him go. *Semen retained*

Purchaser _____

Price \$ _____

Galaxy has an ideal underline, prepuce control, and testicle size.

Sire: Milwillah Reality Q170 in working condition. Reality has consistently produced muscular and structurally sound sons and daughters, and his growth EBVS rank him as one of the top individuals in the Brangus EBV system.

Galaxy's maternal line traces back to our famous ET donor, Telpara Hills Miss Csonka 541D9. Pictured as a young heifer here, she was the mother of TH Van Damme 541H30, who was the first AU Brangus bull to sell for over \$100k in 2014.

Classy with panache, long gun barrel top line and easy fleshing carcass. Very similar to his sire Executive who earned more than \$1 million in progeny sales. Accelerator is out of a Foundation daughter who has been a prolific donor for us. We've matched her with so many different sires and she seems to work over and over. Accelerator was her natural calf. Terrific performance bull being in top 3-7% of the breed EBVs for growth. Will accelerate your breeding program with ease.

Selling ¾ share & buyer takes full possession. Used in herd.

A fusion of the 'Best of the Best' genetics in our TH programmes. These Rocket Mans are so consistent. Full brother to lots 4 & 43. Matched to our donor cow Miss Final Cut 541L70 who has been so influential in the TH program that we have retained this year two of her grandsons to be utilised in the TH sire battery and breed on her consistency. Unbelievably long in his carcass, deep bodied, and tightly skinned, he is a very special beef sire in any breed.

In a class of his own, a straight line of top 1% of the breed for ALL red meat indexes - let him launch your herd to the next level of greatness!

A younger full brother to Lot 3, we have not seen an Ultrablack of these dimensions!

Extreme in length, very strong over the chine, super depth and a carcass packed full of muscle through to his hindquarter. An absolute top ranking Ultrablack in every respect in AU comparison; 8 times ranked in top 1% including highest score in breed for 400 days!

A Force to be reckoned with!

The body on Flight Deck is next level!

This Three D son is extremely deep barrelled, well muscled, with a clean underline. He is very unique in his style with all his mass combined with structural soundness.

Three D is one of the most influential Brangus bulls in the breed worldwide, producing numerous sale toppers in the USA and Australia.

His dam is a beauty too, leading our female Sale lineup in 2021, selling a half-share.

Using Flight Deck will help your herd take off!

Out of one of the lead cows in our herd, this Ultrablack by Millah Murrah Rocket Man again has it all. Heavily muscled along his extremely long top line, he is so easy doing and super quiet with an impeccable underline. Unbelievable set of performance measures, 5 times rated in top 1% of the breed. Our Ultrablack programme has been fed rocket fuel to generate these types of bulls.

Rocket Fuel's dam's full sister, 541Q40, was shown this year as a 6 year old cow with calf at foot and was awarded Senior Champion Tropical Female. She was a pleasure to lead and her current calf was a crowd favourite at the FNQ Field Days.

A special lot!

ULTRA BLACK

Full sister to Dam, Telpara Hills Miss Beacon 541Q40 was awarded Senior Champion Tropical Female in Malanda this year, where 56 Brangus were shown

'The Force' lives up to his name and all visitors who have inspected him have been drawn to this bull. He is big, extremely long, deep barrelled and heavy boned with a very sleek coat and stable temperament.

His dam has been an outstanding embryo donor for us, producing top sires including the \$37,500 TH Cornerstone (Wetherby) and \$26,000 TH Crossfire (Morawitz), and the \$24,000 TH True Crit (Penna).

A top Brangus bull that should be inspected by both commercial and stud breeders. 'The Force' is certainly with you on this bull and will take your herd to higher levels. He's one of our favourites.

Altitude Beef, part of Cross Custom Meats, is re-shaping the Tablelands Beef industry, rewarding cattle farmers for producing better beef, and growing a customer base that appreciates great quality. Talk to Doug if you have Telpara sired steers and heifers to sell.

Zero Gravity is easy fleshing very appealing and structurally sound, big-barrelled with a super clean underline. His sire sold for \$50,000, topping our Sale in 2021.

Zero holes in his EBVs, with very special ratings of top 2-7% for 200, 400, 600 day growth traits. Being in zero gravity is surely a unique experience; producing these high performance cattle is rather special too.

Cattlemen are already picking this bull as one of their favourites. He's a proper good bull!

TELPARA HILLS MISS L11 146C1

Crewman's classy Hollywood dam traces back to early high-performance Greendale U146 cow who was the AU EBV trait leader for growth.

Adding the TJM Three D bull has given extreme thickness and lower frame score.

Crewman is the type of bull to choose if you already have growth in your herd, but are looking to add more shape and muscle.

TH Crewman fits so closely into our TH sire style and we think you'll like him when you inspect him at the Open Day or Sale Day.

Greendale U146: the original 146 cow family donor we purchased at the Greendale dispersal

Here's another impressive Ultrablack again by Milwillah Reality Q170 out of a first calf heifer. Lynton Livestock purchased his dam, now a foundation donor in their emerging stud herd.

Zenith possesses extra width and volume coupled with a strong hind quarter. He is moderate in frame with a very clean sheath.

Again, a standout in high weight gain and steer indexes plus look at his super low birth weight score. Remember we are paid primarily on weight for age grids in AU.

ULTRA BLACK

Maternal Grand Sire, MC Resolute from the famous Mound Creek herd

The TH First Class progeny stand out; being upstanding, well balanced in length and depth of flank and smooth hided. Many of our clients select them on inspection. They are later maturing bulls but have great weight for age all the way through. The 801 cow family hailing from an original Houston Livestock show champion has grown to be in our top 5 cow families.

A huge 10 score for DNA tenderness.

Strong, loose made, smooth-shouldered, deep set, heavy boned, long-as-a-train describes another Mach Five son. These Mach Fives are seriously good.

Correct sheath on this grandson of Atlanta of Salacoa Valley, Big Town, and the Telpara Hills mighty Kenworth 392L4, a Rockhampton Sale topper - all icons in the Brangus breed.

It has not taken a millennium to produce TH sires with staggering EBV profiles like this one. The secret is to use elite deep pedigreed proven genetics.

This is a true sire in the making!

Big strong, heavy made, heavy boned, yet smooth shouldered TH Business class son.

Much of his power physique stems from his impressive MC Real Deal donor dam 392K19. His sire, TH Business Class was the top priced bull in our 2021 Sale, going for stud duties at Triple B.

Equinox has an awesome data set, top line up of top 1% of the breed for 5 traits is mind boggling.

Maternal Grand Dam of 31 & 32:
Miss Brinks Sundance 392L one of our Texas donors purchased directly from Camp Cooley Ranch, home of the famed Brinks herd

Another very good Milwillah Reality Q170 son, great blending of depth of flanks, wide top line, heavy boned. His dam is a full sister to Lot 31's dam.

Aptly named, he has a high octane set of 4 top 1% of the breed.

TH gives you rare genetic opportunities across these multiple highly powered young Ultrablack sires.

Note that he has a very slight scar on one eye.

Great youngster, oozes quality from both sides of his pedigree. River Run 20 gives that muscle along his top, while his super MM Paratrooper dam adds slickness and substance to this lot.

Six traits evaluated into the top 10% of the Brangus breed.

Jedi Master has a unique pedigree, combining classic Australian genetics from his sire, the best of Australian Angus genetics from Millah Murrah, plus Telpara Hills female lines.

We think a lot of this bull and believe he's going to develop into a masterpiece.

Massive combination of length and depth, very heavily muscled young Ultrablack by the famed Millah Murrah \$280k Rocket Man, mated to our breed changer TH 541L70 donor. His pedigree is star studded with maternal power, which we know produces bulls that breed on! His dam was one of the heaviest cows we have seen in the Brangus circles, or in any breed. This bull himself was one of the heaviest calves ever weaned at Telpara Hills; he is an outlier for growth and power! Rocket Ship is an absolute stand out for EBV ratings top 1% including the absolute breed top value twice. Here's unique, unmatched, rocket-like performance in an animal.

A most eye catching bigger, long, deep, square made bull with a very correct sheath and well-muscled hindquarter. Docile as a lap dog, much like his sire purchased by Circle H Brangus.

Out of a very special cow line that traces back to the great 468G15, one of the best cows we ever saw in our tours of the USA. TH 15U15 did make quite a conquest of the EBV scene with high growth and steer indexes. 6 times in the top 15% and better.

MR. NEW BLOOD 50H
TELPARA HILLS MISS FINAL CUT 541L70

Exactly as his pedigree suggests he is stacked with thickness, strong bone, easy fleshing and is clean made.

Quite an impressive UltraBlack option in the paddock. Take a look at his data and his figures show his extraordinary breeding potentials, 6 traits top 1% of the breed in AU! Put a ring around TH Corona in your catalogue for a closer inspection on Sale day.

Corona has legal white near his testicles, which is allowed and sometimes favoured in Brangus and Angus stud breeding, but not visible in his photo.

ULTRA

TELPARA HILLS MISS YEPPOON 541J

An interesting Ultrablack out of one of our first River Run 20 daughters. Body wise he resembles his sire, while his dam has added that super clean skin and width across his top.

Top 1% for 400 & 600 day growth and carcase weight, extremely impressive for his 3/4 Australian pedigree. A hidden gem and likely to be a savvy purchase for his new owner.

We love the volume and softness of this bull.

Note that Light Year has white near flank, which is not visible in his photo. Some breeders consider this a sign fertility and good milking ability in his daughters.

Telpara Hills Ranchman, a Full Brother to Grand dam, 541N25. Sold to Greenacres in 2022

TH Executive daughters are strong, no-nonsense performers across Telpara Hills mobs. This bull by the \$80K Bauhinia Park Resource features great length, widely sprung barrel and moderate bone. Very high growth potential and carcass figures provide a very positive future for this bull. The faster we turn off cattle the more profit they make!

Older, highly proven genetic combinations here, tracing back to both Brinks, Suhn's and Mound Creek ranches. TH Constellation is upstanding, long as a train, smaller headed, and very correct in undercarriage.

His sire, TH Heavy Duty 99P5 has had a successful career at Emerald stud Circle H, producing several of their top sale bulls.

Constellations stand out in the sky, like this bull.

Paternal Brother: Circle H Striker, sold to Voewood Brangus. Photo credit to 5 Star

TELPARA HILLS MISS BRAXTON 468G5

Quite a classy individual with his tall frame, long body, heavy bone, correct pizzelle and strong outlook.

Dutton is a bull we used here in herd as a youngster, and really took notice of him once his calves starting hitting the ground. He breeds very well!
We loved his sire too, Bollinger, who was a lead bull in one of our first sales.

Double cross of our first USA importation the '468' cow family, and this helps explain his flashy phenotype!!

Sire: Telpara Hills Dutton 468R4, selected by Boyd Holden in NSW

This blending of Milwillah Reality with the highly proven Executive sired daughters has given lines of Ultra Black bulls with appeal as heifer breeding options.

Moderate, easy doing and docile. These UltraBlack bulls have blitzed the EBV grids- seven traits in top 1% of the breed!

Comets are uncommon, and this one is a rare achiever too!

Full Brother to Grand Dam: Telpara Hills Air Strike 468Q22. Sold in 2021 to Milwillah, helping create their UltraBlack programme

Stood out in the draft-up, this UltraBlack combines the best of the best sires we use at TH. Geddes has definitely been one of our favourite Angus sires we have incorporated.

Ambition is big, long, clean skinned and shows a gun-barrelled top line.

Amazing figures reinforce why he stands out in the mob. 8 traits in top 1% of breed in AU!

It is always our ambition to present top cattle for our clients to make their calf drops more profitable.

ULTRA BLACK

3/4 Related: TH Miss Geddes 468S29. Set a world record for an UltraBlack heifer, selling for \$40,000 to CPR Brangus in 2023.

A lot of people say they want a young bull so he can acclimatise to their herd and environment as he matures. At just 20 months at the Sale and 18 months at the time of photographing, Space Station is a stunning bull with an out-of-this-world set of breed topping figures.

We think a lot of these Milwillah Reality progeny. Space Station's dam is a full sister to TH Rancher, who was selected by Welcome Downs for \$37,500.

A great bull hidden in the back of the draft.

Full Brother to Dam: TH Rancher 541S19, went to the elite commercial herd at Welcome Downs, Einsleigh

Almost a pure Angus bull, with only a dash of Bos Indicus in his genetic profile (he still qualifies for UltraBlack Registration Status). Two superb Angus sires here, give him that blockiness and shape. His data set outranks most animals in his year - amazing these UltraBlack young bulls - 8 traits, 5%, and better. Being slightly smaller, he's ideal for joining to heifers. Both his sire and maternal sire have proven themselves to be low birth weight bulls with calves that impress as they grow.

Closely Related to Dam: TH New Limit 801S7, set a world-record UltraBlack Price in 2023 at \$100,000

HEIFERS

BUILD YOUR FUTURE

THERE'S NO BETTER TIME
THAN NOW

Truly great herds start with superior female genetics, and build from there. Every bull that has bred well for us has always been out of a strong cow line.

This year our heifer offering is younger, combining cutting edge genetics with proven performers. Because of that, it's can be hard to see through their young age, but trust us, the power is there, waiting to be unleashed to build the future of your herd.

2025 could be the year savvy buyers secure incredible Telpara Hills females that are the profit drivers of tomorrow.

*ALL HEIFERS JOINED TO TELPARA HILLS PURE GOLD 541T95

What an elite Heifer!

She is a standout phenotypically in this Sale with her eye-catching extreme muscle expression, along her gun barrel straight top line, her overall volume, capacity, and depth of flank. Always inquisitive she yearns to show you how good she is.

This heifer out of TH Wrangler's full sister starts from a very low birth weight figure then suddenly leaps to high growth rates for both 400 and 600 days. This is a unique and true curve bending achievement few animals match.

A full brother to this heifer weighed 586kg at 10 ½ months of age and blitzed all breeds on his way to being awarded overall tropical calf champion of the Malanda Show, with more than 20 entries in the calf section. He drew high praise from the judge and the crowd.

The sire of TH 541U156, TH Mach 5 became famous worldwide in Brangus circles, when he equalled the world record price at the time of \$150k, and then went within 1 point of being named World Champion Brangus Bull 2022. Now however most importantly he is proving just how genetically elite he is with large outstanding lines of progeny both for us and his purchasers Milwillah Angus and Ultrablack Stud in NSW.

Fancy owning a ½ share of a true star of this catalogue? It is easy! All you need to do is be the last one bidding on her on Sale day.

Telpara Hills is offering a 1/2 share interest in this special heifer. Please speak to Telpara Hills or see our website for the full details of the mutually beneficial half-share arrangement.

A top pick, again by one of the hottest sires we are currently using. Start with a great cow family eg. 468, add an elite sire and we produce a special heifer, with style, great skin and overall high appeal phenotypically. Her EBV ratings rank her in the top 5% and better for 10 traits -incredible.

Get a Benchmark heifer into your herd as soon as you can; their sire is taking the breed to another level.

Very quiet UltraBlack heifer, again by the hot sire MB Benchmark, whose first drop of stock for us have been impressive. This daughter appeals with her moderate frame, balance, volume, strong wide top-line and stands out in her group. Her dam was a successful show cow from Shadow Valley stud in Gin Gin, whom we purchased at the ABCA Rockhampton Sale.

Picket fence line of top 1% for all her indices! Serious breeding potential and a rare opportunity!

Dam as a heifer: Shadow Valley Miss Eclipse 468M. Top Selling non-TH female in the Rocky 2018 ABCA Sale.

Proven TH genetics, tracing back on her dam's side to a super donor TH Miss Lombardi 541D10 who was sired by Lombardi of Brinks. An iconic sire for the breed in USA when we started our journey was Brinks Brightside and he was used by Camp Cooley over the immortal Ms Cadence 468G5 cow to produce the Lombardi bull. Great maternal genetics keep on coming through our breeding programmes!

TH Masonry is a senior sire at Wetherby Station and his daughters are highly valued. Her dam has sold 3 progeny for an average of \$17,333.

Photographed at just 17 months of age, this young heifer has a lifetime of potential ahead of her.

Full Brother to Dam:
Telpara Hills First Class 801Q10,
Leading sire in 2021

Sire: TH Executive 541N70 in
working condition. One of the
most consistently great breeding
bulls ever at Telpara Hills.

A massive, super strong topped, heavy boned, deep flanked brood matron in the making. So quiet and wide you could roll out a swag along her top line. Highly proven sire TH Executive, broke the \$1 Million progeny sales barrier two years ago.

The dam is a full sister to Telpara Hills First Class 801Q10, one of our lead sires in 2021.

Her cow line traces back to D BAR D Anita Kay, a rare Triple Crown show winner at Houston Livestock Show.

This heifer is stacked with heaps of pedigree power.

Across multiple herds we are seeing the legacy left by the sire here who earned over \$1m in progeny sales alone.

This heifer traces back to a very low birth weight sire TH Revolver. He has two low-birth weight sires both of whom we inspected in USA- Atlanta of Salacoa and Suhns Next Step in his pedigree.

Sound growth figures to go into your heifers.

Great Grand Dam of lots 115 & 118: TH Miss Lombardi 541D10, one of our first imported embryos and a true powerhouse matron.

A rare chance to add a Varilek Geddes heifer to your herd! Remember Geddes was the sire of both the \$50k TH Avalanche, and the UltraBlack record setting heifer, the \$40,000 TH Miss Geddes 468S29.

Combine this with TH Ace of Spades on her bottom pedigree line, and you are getting top shelf genetics. TH Ace of Spades sold 10 straws of Semen at TH Elite Genetics Sale at Rockhampton for a breed record of \$700 per straw at the time. Her grand dam is a full sister to the \$50,000 Rockhampton sale topper, TH Grange. Mind blowing 7 traits ranked in the top 1% of the breed in Australia - certainly a genetic star!

A medium framed, classy, well balanced heifer by the highly successful North Dakota Varilek Geddes bull, who sired the world record UltraBlack female in our 2023 Sale.

Geddes rarely misses the mark; and mated to a Real McCoy 541L70 daughter he has produced an UltraBlack daughter with enormous breeding potential. Six full brothers to Lot 129's dam averaged \$30,250.

Super low birth weight great run of top of the breed figures she is one to chase strongly.

ULTRA
BLACK

Sire of Lot 130 and Maternal Sire of Lot

Lot 130 is a stylish, moderately boned daughter of one of AU's most widely used sires: TH Real McCoy 920J19. Her grand dam was hugely successful, producing over \$260k in progeny sales. The scale and attractive phenotype of this heifer stems from her designer dam TH 541Q41, a visitor's favourite in the paddock. She's the type of cow that we'd love 1000 of, because she's functional and complete in all that she does.

Extra features of TH 541U92 are her clean skin, great muscle pattern along her top line and high docility.

She hovers around the top 20% of the EBV ratings. One can almost guarantee that she should breed some top cattle.

Sire of Lot 131 and multiple lots in this Sale: Milwillah Reality Q170, his progeny are excelling at Telpara and are some of the highest ranked in the AU EBV system.

These UltraBlack cattle, stand out this year with their consistency, not only in appearance, but look at this heifer's performance too. The prepotency of the Milwillah Reality Q170 over a range of cow families is very impressive. They are easy to pick with their length, extreme thickness, and adequate bone. This heifer is unique in that she is higher in Angus content being a maternal granddaughter of the famous Varilek Geddes bull who made such a high reputation in Angus circles in AU. Her dam just weaned an amazing bull calf sired by Mach Five. Top 1% - 8 traits. Huge potential for Ultra Black programmes or mating to elite Brahman sires. She's a very special lot.

Maternal Sire: TH Bollinger 541N83, selected for stud duties by Milwillah and Chasmac; attractive from every angle

A TH Wrangler daughter we are offering and she has drawn plenty of interest on inspections. Being bigger, well boned, and well covered along her spine. She attracts attention with her quiet temperament too. TH Wrangler, one of the \$38,000 lead sires in the 2022 Sale is proving a successful stud sire for Lynton Livestock at Ravenshoe.

A well balanced and strong set of EBV scores, 7 traits, 10% and better.

The sire's pedigree here speaks for itself, but add to this the TH Remington bull on her dam's side and you get a very special line of highly proven and successful genetics.

A stand out lot!

Maternal Sire: TH Remington
541M18, top selling bull at the
Roma ABCA Sale in 2018

TELPARA HILLS NEW FRONTIER EMPRESS EMPC4

Excellent easy fleshed, superbly barrelled, wide Reality UltraBlack daughter is from the 555 cow family we established based upon a massive Bahrock West Empress Brahman cow in the early 2000s.

Adding the two acclaimed TH bulls Executive and Ace Of Spades to the Milwillah Angus sire Reality Q170- triples up on fleshing traits.

Her data confirms this with 5 times she climbs into the top 1% of the breed.

Different cow family genetics but same elite quality in this lot.

Maternal Sire of Lots 143 & 144 TH Ace of Spades 541K65. His daughters continue to impress us at Telpara Hills.

A standout in the draft up, this Ultrablack by the Chiltern Park Moe M6 is very complete.
TH Ace of Spades left us a great legacy of daughters in our herd to build upon.

The 468 cow family were our original family imported from the USA and have held their place in the top 5 cow families for nearly 20 years.

This is a lovely heifer.

ULTRA
BLACK

Sire: Chiltern Park Moe M6. We truly enjoyed selecting elite Angus sires to use in our UltraBlack program, and Moe has earned his excellent reputation in AU Angus circles.

Hard to fault pedigree in this taller, lengthy easy doing, docile young female with breed icons such as CB Final Cut, TH Van Damme, and Miss Portfolio highly represented.

Absolute elite performance data, top 6% and better for 8 traits. Recall the 15 cow family holds the long time record for highest priced female ever sold at auction in AU at \$60k set at the special Legacy of Ladies Sale in Rockhampton.

A rare opportunity to select a heifer with a pedigree and performance at the pinnacle of AU Brangus.

Totally new genetics here and an imported embryo calf, this heifer is extremely wide topped and easy doing and very compact in her frame.

The DDD ranch in the top line of her pedigree has long been a leader in the USA show scene. Her dam is extremely deep, and her sire is built like a Tank, just like his name.

Another unique genetic package that should put width and depth into her progeny.
 Her EBVs and DNA results are pending.

Dam : MS JFB Calculus Adelina 10E5, new genetics to Australia, from show winning lines in Texas

A very special, massive heifer with a spine that is as long as a train. Great underline and a pedigree that combines the power of TH Kenworth 392L4 in her sire with the Hudgins New Blood bull on her 801 cow line.

Looking further past her phenotype you see a mind-boggling set of objective measurements highlighting her extreme value as a breeding tool. Six traits, top 10% of the breed in Australia. Keep the spotters' attention on you on this heifer!

A very pleasing blend of the traits of the evergreen TH First Class bull with the power of one of our massive MC Real Deal donor cows. 392K19 has proven herself time and time again, amassing over \$368k in progeny sales.

Extremely high growth data stems from the combining of the two leading USA bloodlines here in Brinks and Mound Creek ranches.

Again, a very quiet heifer in the mob and packed with influential genetics. Should grow into an impressive brood matron like her dam.

Paddock photo of Dam: TH Miss Real Deal 392K19. Has sold bulls to \$37.5k and females to \$34k.

A new, AU bred sire line, this low-birth-weight heifer by Oaklands Prime Time sits strongly on EBV ratings of 8- 15% for growth. Her TH Silver Bullet sired dam quickly traces back to the original Center Ranch 920 M1 Transformer cow who started the 920 line in Australia. Somewhat higher in Brahman content, this heifer has definite appeal to a wide range of operations.

A granddaughter of the high-priced, Texas Angus bull, Quantum Leap, this heifer traces her lineage back quickly to our original 801 cow family purchase at Houston, 801Y. Recall that JOJ Ms Onstar 801Y was awarded champion heifer at the huge Houston Livestock show, the day after we purchased her at auction. Elite data with 10 recordings in top 10% and better and huge tenderness DNA result. Exciting genetics right up to the last lot of our 2025 Sale!
